

AUTHOR: SUPERCHARGE BATTERIES PTY LTD
SUBJECT: NEW QUEENSLAND WAREHOUSE
ISSUE: JUNE 2006

Our Queensland Expansion

From the humble beginnings of small rented premises in Rocklea in 1985, to moving into a \$3 million dollars purpose built warehouse in Willawong, SuperCharge has to be doing something right!

Their quality products have become widely accepted throughout the industry and the demand just keeps growing. With its Queensland operations leading the way, the company is ensuring that it meets that

demand in the coming years. With 3 times the storage capacity of the previous warehouse, SuperCharge has built a distribution facility that is better equipped to service its customers. SuperCharge can now store more than adequate stocks of all its lines right through from the SuperCharge Classic and Gold (Maintenance-Free), to the marine, deep cycle, SLA and motorcycle batteries. SuperCharge is indeed a veritable supermarket when it comes to these battery types.

This expansion is SuperCharge's investment in the future.

Supercharge's new facility is located at **128 Gardens Drive, Willawong**, in one of Brisbane's fastest growing industrial estates. You can't miss the red & yellow mark of distinction that says "SuperCharge".

The company is very proud of this milestone. It took the company 20 years to reach its current status and is now doing the groundwork for the next 20 years and to re-affirm its commitment to continue providing the Australian market with superior products and service.
