

NEW

GLADIATOR

- Industry leading **48** month warranty*
- **100%** more starts**
- Designed for longer service life

ARMED FOR MORE STARTS. BUILT TO LAST.

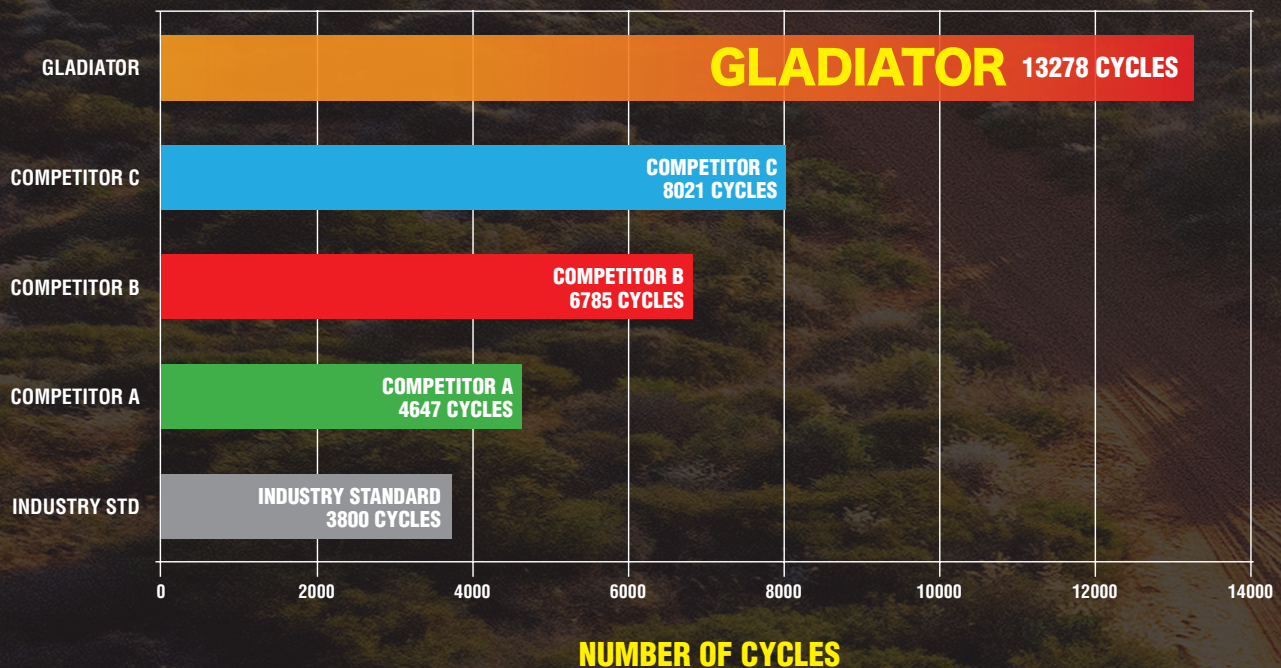

*Conditions apply **Against competition using Industry Test Standards

GLADIATOR THE SUPERCHARGE FLAGSHIP

The new Supercharge Gladiator Battery range is designed to endure Australia's extreme weather conditions. Gladiator is the premium battery option for those vehicles demanding superior power and durability to outwit ruggedness in the hottest or coldest weather. Gladiator is equipped with features and internal components that consistently give high performance in response to the ever-changing operating conditions without compromising long lasting durability.

Supercharge Gladiator's industry leading 48 month warranty is 20% more than its nearest top competitor. Gladiator also delivers 66% more starting cycles than its closest top competitor. Supercharge Gladiator is clearly the superior battery with its industry leading warranty and its best-in-class performance.

WHY 100% MORE STARTS*

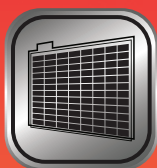

* Against competition using Industry Test Standards

GLADIATOR

ARMED FOR MORE STARTS. BUILT TO LAST.

DESIGNED TO WITHSTAND RUGGED AND EXTREME WEATHER

1 PRO-FRAME

- Full framed grid design for both positive and negative plates for better durability.
- Plate design has been upgraded utilizing a Double-sided pasting process to help improve capacity and performance.

2 DURA-CONNECTORS

- Re-engineered lead connections for a more efficient current flow helping achieve maximum capacity and better durability.
- Utilising improved processes and design to deliver stronger plate assembly bonding for better vibration resistance.

3 PE ULTRA SEPARATOR

- Increase separator thickness and improved strength resulting to better puncture resistance and durability.

4 ELECTROLYTE PLUS

- Anti-sulfation enriched electrolyte slows down sub-discharge to improve recharge ability for more starts.

5 EMF FORMULA

- Specially formulated paste infused to maximise capability and increase cycle endurance.

6 ANCHOR BONDED ELEMENTS

- Holds the plate securely, improving vibration resistance.

48 MONTHS INDUSTRY LEADING WARRANTY WITH EXTENDABLE MAINTENANCE FREE FEATURE

Supercharge Gladiator is designed for longer service life. After the expiration of the 48-month guaranteed warranty, you may be able to extend the battery life with easy maintenance. The accessible plugs underneath the top label allows you to top up with distilled water.* This allows you to possibly prolong the battery life with maintenance free use.

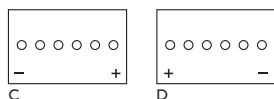

* Please visit www.supercharge.com.au for tips and instructions for safe battery maintenance
