## **BATTERIES**

# GLADIATOR

**Pinnacle of Lead-Acid Battery Technology.  
Armed for more starts. Built to last.**

- 100%<sup>1</sup> more cycles than older technologies
- Exceeds OE<sup>2</sup> requirement for all vehicles
- Balanced for optimised heat control
- Built with Tropicalised<sup>3</sup> and Hardened Framed Plates
- High efficiency electrical flow design
- Advanced dense and compact battery construction
- Engineered with highest efficiency energy output and recovery
- Formulated for high state of charge retention
- Designed to resist vibrations

**Reliable, Long service life, Longest warranty.**

1 Rigorous laboratory testing against International Starting Battery Standards have generated up to 200% more cycles.

2 Original Equipment (Global Vehicle Manufacturers).

3 Design which aids in heat dissipation inside the battery, thereby reducing life degradation due to extreme heat of under-bonnet conditions.

## **BATTERIES**

SuperCharge Batteries is re-introducing SuperCharge Gladiator Battery now with the longest industry warranty of 60 months\*. This is a groundbreaking offer to customers who value high quality and product life above all else. SuperCharge have gone back in retesting the Gladiator Battery, and thru vigorous testing, it has achieved 100% more starting cycles.

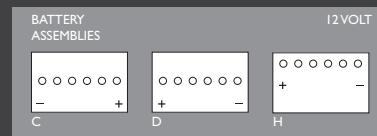

### **GLADIATOR RANGE**

TYPE	NOMINAL VOLTAGE V	CCA (SAE)	RC (min)	AH (20HR)	OVERALL DIMENSION (mm)			WET	ASSEMBLY	POST TYPE	BASE	EXTENDED WARRANTY (Private Use)	COMMERCIAL USE WARRANTY
					L	W	TH
