

TROJAN AGM PRO

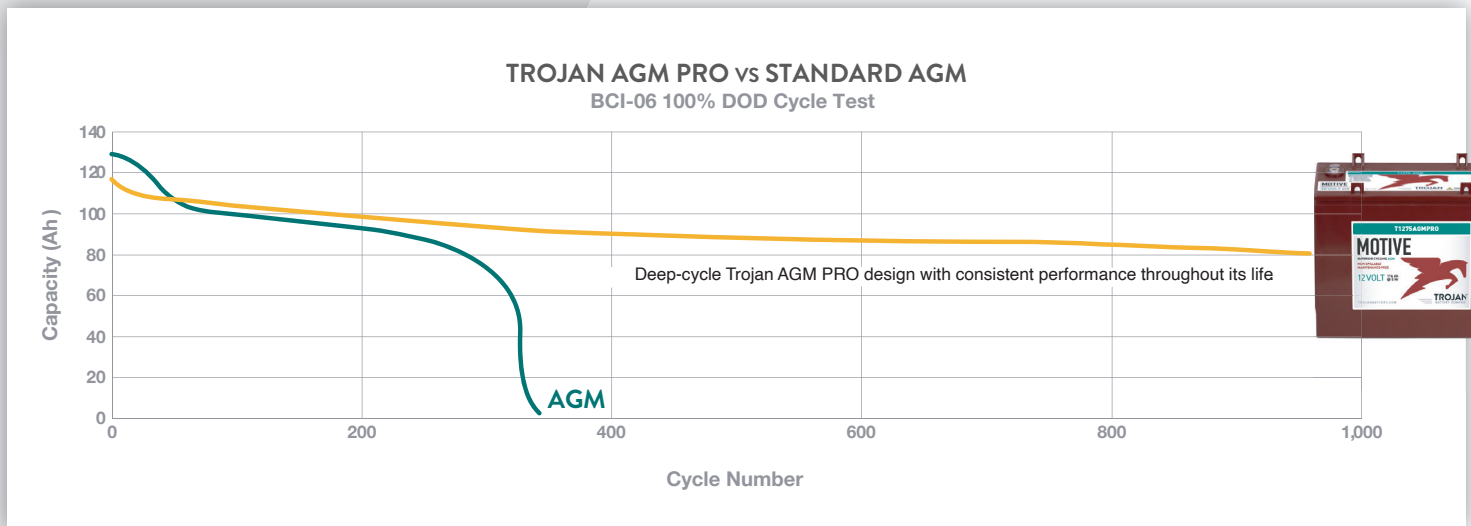

The new TROJAN AGM PRO Batteries deliver up to 3x the cycle life with high sustained performance versus standard AGM. The battery maintains high capacity in extreme deep-cycling, partial charging and challenging environments.

It outperforms the competition in these key areas:

- » **Life:** Up to 3x longer cycle life than standard AGM. Validated at 1,200 cycles at 100% DoD.
- » **Operating conditions:** Robust performance in extreme temperatures and conditions (from -20°C to 50°C).
- » **Charge recovery:** Tested to withstand and recover from periods of partial state of charge.
- » **Build quality:** Designed to absorb industrial/commercial vibration to preserve power and extend service life.

Trojan AGM PRO is ideal for floor-cleaning machines, aerial work platforms, material-handling equipment, and golf and commercial vehicles.

PART NUMBER	V	BCI SIZE	RATED CAPACITY (RC)			RATED CAPACITY (AH)				Energy @ 100 Hr Rate, kWh	BATTERY SIZE (MM)			WET WEIGHT LBS (KG)	POST TYPE/ TERMINAL TYPE

Trojan AGM PRO maintains high capacity in extreme deep-cycling with consistent performance throughout its life compared to standard AGM.

WHAT SETS TROJAN BATTERY COMPANY APART?

For nearly 100 years, we have helped shape deep-cycle battery technology and become a major supplier to OEMs. We offer:

- A portfolio that features a broad range of premium energy-storage solutions.
- A global Technical Support Team with trained employees
- On-time delivery and supply-chain security with global manufacturing sites
- A worldwide network of Master Distributors and Authorized Trojan Dealers
